FENWAY PARK, Boston, Oct. 13.—The Boston Braves are the world's baseball champions of 1914. They defeated the Philadelphia Athletics today by the score of 3 to 1, winning the series with four straight games, the champions of the American League not capturing a contest.

Rudolph pitched a masterly game, winning his second contest of the series today. The Philadelphia team could not find his elusive slow ball when hits would have sent runs over the plate.

The Bostons outgamed and outplayed their opponents today in every department of the game. They clinched the victory in the fifth inning after two men were out with Rudolph's single. Moran's double and Evers' solid blow to center. It is the first time that a world's series has been won in four straight games, and after the last man was out the Athletics came over and congratulated their rivals. The spectators went mad with joy and paraded the field singing and cheering.

There was little betting on the series as the large majority of the "fans" said Boston was a sure winner and no one wanted the short end. Wagers were made at 10 to 9 that Boston would capture the contest to.

Philadelphia in its hour of need suffered an unexpected handicap. Amos Strunk, the center fielder, who was one of the great batting team had had a fit of the "flu" and was forced out of the remainder of the series. A ball on a finger of his right hand prevented further participation. Walsh played in his place yesterday and will continue in the line-up.

Boston's formidable array was unchanged. Principal in this, the Athletics have found is tow-headed Hank Gowdy, who in this series has supplanted Frank Baker as a long-distance hitter. No player who has ever taken part in a world's series has equaled the record of Gowdy, whose bat had won Friday's game and prevailed again in yesterday's contest.

"I refuse to be bound in my personal actions," declared Denison. "I shall not wage a campaign, but I shall make public my own views whenever I please."

Martial Law Proclaims Seriousness of the Situation

Command Under Col. Maritz Mutinies, Official Report

CAPE TOWN, Union of South Africa, via London, Oct. 13, 11:28 a. m.—It has been officially announced here that a command under Colonel Maritz has rebelled in the northwest of the Cape province. Martial law has been proclaimed throughout the union.

The rebellion among the forces of the Northwest Cape province has been brewing since the resignation of General Berers as commander in chief. As soon as the government realized this situation it sent Colonel Britz to relieve Maritz of his command. Colonel Britz then discovered that Maritz was commanding German troops as well as his own and that he had German guns in his possession.

Maritz, who had been given the German rank of general, had arrested those of his officers and men who were unwilling to join the Germans and had sent them as prisoners of war to German Southwest Africa.

According to an official statement, an agreement was soon made between Maritz and the Governor of German Southwest Africa guaranteeing the independence of the union as a republic, ceding Walvis bay and other parts of the union to the Germans, and un-

GREAT CONFLICT IN POLAND IMMINENT.

TEUTON ALLIES AND RUSSIANS TO DECIDE THE ISSUE

By Associated Press.

LONDON, Oct. 13, 10:55 a. m.—All eyes today are turned to the eastward, where under conditions of the utmost secrecy, the Teuton allies and the Russians are preparing to engage in what may prove one of the most decisive battles of the war.

Evidence is accumulating to show that this gigantic conflict will be determined in Russian Poland, and the only question disturbing British experts is as to which side has chosen the battle ground.

Berlin admits having withdrawn from the Niemen river and at the same time discounts the whole movement in that region as being of no strategic importance.

It is now clear that Russia has abandoned the narrow point in Galicia between Przemysl and Cracow, Russian forces having virtually occupied all of Galicia with the exception of these two places. Petrograd claims this operation is due to strategic reasons, while Vienna maintains that the rejuvenated Austrian armies have relieved the Przemysl fortress and driven the invaders out.

It is unquestioned that the more or less demoralized Austrian forces, stiffened by German reinforcements, have assumed the offensive, and there is no information to indicate that the Russian retirement is anything in the nature of a rout resulting from vigorous fighting.

BOSTON WINS WORLD SERIES

Braves Take Fourth Straight Game and Big Championship.

(Continued From Page 1)

Hedding they excelled the Boston team by .909 to .908 in the three games thus far, and to their falling off in hitting alone do they attribute their three failures. The team has batted for an average of only .156 in three games, in which they averaged five hits a game.

After today's game the players cease to participate in world's series proceeds. Receipts for the first four games probably will total \$225,000 on a total attendance of 110,000. The players' share of the money will be about \$15,000, considerably less than two years ago. Yesterday's game set a new record of 35,520 for attendance at a world's series contest in this city. Weather conditions continued excellent.

Philadelphia—Evers tossed out Pennock. Mann made a brilliant catch of a drive hitting off a two-bagger.

OPPOSING FORCES FIGHT DESPERATELY

By Associated Press.

PARIS, Oct. 13, 6:30 a. m.—The efforts of the Germans, who are fighting hard to effect a turning movement to the north of the long battle line in France, continue to hold the interest of the observers of the war. According to an official announcement, some days ago had advanced in the west as far as Cassel, twenty-seven miles northwest of Lille. These German forces now, however, are said to extend only to Hazebrouck, fifteen miles south of Cassel.

If this should be true, it is considered that it will make somewhat greater the difficulties of the Germans in bringing success to their efforts. This section of the war zone continues the scene of violent actions. The opposing commanders are fighting desperately to gain the slightest advantage on which so much may depend. The Germans at the same time are not lessening their attempts to find at other points weak spots in the allies' front.

All their efforts, it is said, are being met successfully by their French and English opponents. The latest Germans captured by the French belonged to an active regiment which was part of the corps stationed at Stettin. This fact, according to the French, indicates that the Germans have concentrated on the French frontier forces which ordinarily would be assigned to guard the Russian border.

dertaking that the Germans should invade the union only if Maritz asked them to do so.

Maritz boasted that he possessed large supplies of guns, rifles, ammunition, and other obtained from the Germans, and that he would overrun the whole of South Africa.

"In view of this state of affairs," concludes the official statement, "the government is taking drastic steps to quell this rebellion and punish all rebels and traitors according to their deserts."

FOUGHT IN BOER WAR.

Solomon G. Maritz fought in the Boer war under the rank of commandant. He was captured by the British in November, 1901, described his military activity, and on December 10 of the same year he was reported wounded.

In the summer of 1904 the administration of German South Africa confronted with a rebellion of native tribes in the eastern part of July. Maritz admitted her inability to cope with the movement. She asked aid of Great Britain.

In response the British government granted a German permission to engage Maritz, who then held the title of general, as a military adviser to General Trotha, commander of the German troops in South Africa. Two skirmishes convened General Maritz ten days ago, and 1,000 men from Cape Town, South Africa, from which place the advanced to join the German forces.

"The exposition is a wonderful laboratory for the educator and they will take full advantage. Oakland is the ideal spot for the convention, and the transportation facilities make it specially adapted. The situation couldn't be better."

Secretary Joseph E. Calne of the Commercial Club presided at the luncheon in the absence of President Harmon Bell. Following the luncheon in the blue room a session of the N. E. A. committee was held to deliberate details of the coming convention.

Gier Surrenders and Is Freed on Bonds

By Associated Press.

COLONEL THEODORE GIER, accused of petty larceny by Rev. William Keeney Towner, who declared that Gier appropriated a "Dinner Plate" from the dining room of the Park exhibit, surrendered himself this afternoon. He was released on \$100 bonds.

"The literature all had the words 'Pick me up' printed on it," said Gier. "And I don't see how they can accuse me of petty larceny for following instructions."

FIRST INHARMONIOUS NOTE.

London, Oct. 13, 1:50 p. m.—The rebellion of a section of the Dutch element in South Africa, which broke today with suddenness, is the first warning note that has marred the harmony in the British empire since the outbreak of the war, and it has momentarily diverted attention from the arena near the heart of the empire.

That this rising was real and dangerous was sufficiently proved by official dispatches from Governor-General Balfour to the imperial government and by the drastic step General Louis Botha and his colleagues have taken to stamp it out by the imposition of martial law in the whole Union of South Africa.

The proclamation of martial law directly charges the widespread secret propaganda of the Germans with being responsible for the sedition of this command, which was one of the four armies sent in the field when the union government undertook to relieve the home government of the task of dealing with the German colonies in the continent of Africa.

WHOLE DOMINION INVOLVED.

It apparently is the belief of General Botha's government that others besides those under the immediate command of Colonel Maritz may have been involved, hence the inclusion of the whole dominion in the order establishing martial law.

Germanizing factors are said by British authorities to have been at work for years in the frontier districts and to have even percolated into Southwestern Transvaal and other Dutch districts.

Telegrams from Cape Town declare, however, that a majority of the Dutch element is absolutely loyal, and this seems to be shown by resolutions drawn up at an emergency meeting of the South African party immediately after the news of the rebellion had leaked out. The meeting, which was composed entirely of Dutch-speaking Afrikaners, condemned the conduct of Colonel Maritz in the strongest terms. A telegram was dispatched to Premier Botha unreservedly offering the services of the Cape Dutch in any capacity desired.

Mrs. Talbot referred to the recent accident which resulted in the death of 10-year-old Leona Perival and stated that if an ordinance such as is in effect in a number of cities, Seattle being cited as the model, was passed here such accidents would be impossible. The letter was referred to the department of public health and safety.

MRS. CARMAN TO ACCUSE MAN

Her Lawyer Says That She Is Innocent of Slaying Mrs. Bailey.

FREEPORT, N. Y., Oct. 13.—"Not only will we prove Mrs. Florence C. Carman innocent of the murder of Mrs. Louise Bailey, but we will come close to proving the guilt of the real slayer, a man."

George M. Levy, attorney for the Freeport doctor's wife, today made this declaration in discussing the place of the defense in the trial to begin next Monday.

"We will first outline and then prove a story which will amaze every one in Nassau county and elsewhere who has followed the case since the night of June 30," he declared. "We will show a man did the killing, and we will show why he did it."

"Testimony will be given which will rather hang upon certain persons, but nobody will be spared."

GIVES NO DETAILS.

Levy declined to say whether or not the man who will be pointed out as Mrs. Bailey's slayer has been mentioned previously in the case, or if he is a relative or friend of any of its central figures. He was likewise reticent as to the motive.

"I will say this, though," he added, "that we have three times as much evidence against this man as the state has against Mrs. Carman, and they regarded their case as strong enough to justify indicting her for first degree murder. If I were the man who will be named when we bring our defense before the court I'd be afraid to go before a jury for my life."

"Of course, with this element in our case, my associate, Surrogate John J. Graham, and I are absolutely certain of Mrs. Carman's acquittal—and this isn't the stereotyped statement every lawyer makes before his case is heard. I mean it. I don't think there is a chance for her to be convicted in any degree whatever."

The defense will call about twenty-five witnesses, including Mrs. Carman. She will help the contention that a man did the killing.

May Investigate Case of Leper Velasquez

CARSON CITY, Nev., Oct. 13.—That the case of Cicerlano Velasquez, the Mexican held in Reno as a leper, may be investigated by Surgeon-General Rupert Blue of the United States public health service, a bureau of the Treasury Department, was indicated yesterday by the interchange of telegrams between that official and United States Attorney William Woodburn Jr.

Woodburn wired Secretary of the Treasury McAdoo, asking assistance, and Surgeon-General responded with a telegram to his office, and the information that it was illegal to send such a case from one State to another. Blue urged that an effort be made to induce the authorities of California to consent to the return of Velasquez.

Velasquez says the disease manifested itself about eighteen months ago, when he was in Los Angeles.

According to the opinion of the District Attorney, the county may legally appropriate a sum not exceeding \$500 per month for the protection of the prevention of cruelty to children, of which J. H. Fairweather is secretary. The county has asked for \$200 per month aid from the county. The advisability of making the payment is being considered by the supervisors. There has been considerable opposition to the measure.

"The Way of the Transgressor."

Robert G. Ingersoll is credited with the following anecdote: A number of well-dressed gentlemen were crossing a muddy street. Some malicious small boys engaged in throwing mud at them. The first turned indignantly at the young malefactors and was about to remonstrate when the urchin remarked: "Oh, you can't throw back at us; you will get your own hands dirty!"

From the Enquirer of last night; the Enquirer, the organ of Progressivism and its apostle, Hiram Johnson, the following excerpts are quoted, and THE TRIBUNE in quoting them apologizes to its clear-minded, decent, truth-loving clientele consisting of the best men and women of Oakland, Alameda County and the State, for printing them, and pleads in extenuation that the exigencies of the occasion warrant it in one instance only and that, never again will the offense be repeated, because THE TRIBUNE appreciates the standing the decency and the morality of its clientele and respects it for those attributes, and appreciates the story told by Ingersoll.

Progressive Republicans and Democrats of John D. Fredericks' party repudiated and disowned him. The Progressive candidate for governor of this state stood before a wholly irresponsible audience at Macdonough Theater Saturday night, a picture of despair.

Having just returned from a trip throughout the northern part of the state, where he had been speaking to little groups or canceling his dates for lack of hearers, feeling a deep "disgust," as he expressed it himself, because his campaign failed to awaken any interest, Fredericks showed up again in the depression with which his egotistic defeat has overwhelmed him.

A candidate has scarcely ever shown more disadvantageously before an Oakland audience than did Fredericks upon that occasion. Instead of being able to present in a dignified and logical manner the issues now before the people, and instead of being able to elucidate some sound constructive policy to astound his candidacy, Fredericks was driven to the natural course of mud-slinging. Telling up the slanderous course of Mike de Young and the Eighty-ninth, he claimed Progressives of every class, without any regard of social or moral distinction, visiting a terrible vomit of pusillanimous invective upon all alike. His eyes gleamed with the malicious hate that consumed him. His wicked imagination revelled in the infamous fancies of his distorted mind. His hissing sentences were venomous. His body writhed.

In espousing the cause of the black cooks that he gave, sought to bring up the Oakland Progressives and garnish the fair name of California for a politician's holiday. Fredericks evinced both monumental ignorance and superlative brass. Ignorance because he does not know, apparently, that the "fraud" campaign raised against Progressives of this county is known by men and women of all parties to be the work of a gang of the most execrable political blacklegs that ever cursed any community, waged in the deepest determination to win the election in the name of Mike de Young. John D. Fredericks bears a record that any man not imbued with the spirit of the bully, or who had a slight respect for the proprieties, would seek assiduously to keep from that public scrutiny which thrusts his vulgar person into view enforces.

John D. Fredericks has decided to die the political death which political infamy portends. In these his last days, he has, as a dogmatical enthusiast, withdrawn into a lonely walk. With no reputation to lose, without principle, without hope of resurrection, he is odiously sinking into a merciful oblivion, his wicked passion strong in death.

As a matter of actual truth—and the figures are furnished by the management of the Macdonough theater—the attendance at the meeting addressed by Captain Fredericks was 1933, the complete standing and sitting capacity of the house. As a matter of actual truth between 700 and 800 who would have attended were turned away. As a matter of actual truth there never was a more responsive audience addressed by a speaker, and instead of standing before his hearers "a picture of despair," Captain Fredericks appeared at his best, in the flush of triumph, pleased at his reception—because it was one of many such that has greeted him during his canvass—and for the reason that it is a sure indication of his success at the ensuing election.

John D. Fredericks did not "throw dignity to the winds," as this importuned prevaricator asserts; on the contrary he was dignified to a degree, and the splendid impression made elicited thunderous applause from his auditors, composed of the best men and the best women of Oakland and Alameda County, whom this fellow who penned the excerpts quoted deliberately insults. Nor did he indulge in mud-slinging and we-challenge this unspeakable writer to quote one sentence that can be so construed. Nor did he resort to invective, for John D. Fredericks does not have to resort to invective. On the contrary, the appeal made by Mr. Fredericks was one made to the reason and common sense of an intelligent audience that had assembled to listen to a calm, dispassionate discussion of the issues at stake. The answer to this statement that we have quoted with extreme reluctance, was in the unanimous approval manifested by these same men and women and a further answer will be returned at the November election.

THE TRIBUNE has no desire to allude further to the statements in the editorial (?) of the Enquirer or to repeat the expressions of the coarse-minded being who indited them. It will content itself by stating that when a cause becomes so precarious as to warrant the use of language such as was indulged in by this organ of Hiram Johnson with reference to the meeting of John D. Fredericks, a gathering which manifested his unanimous approval of his course, then that cause must be in desperate straits. When an aggregation of men seeking public office and the emoluments—especially the emoluments—finds itself endangered in its chances for victory that such tactics have to be employed, what may be expected?

We fail to see where such a course of conduct tends toward success. Every man and woman attending that meeting knows the statements made by the Enquirer are untrue and every man and woman who did not attend knows it is untrue. A polished prevarication might have appealed, for there are many lies told that dressed in the garments borrowed from the wardrobe of truth often deceive. But when falsehood appears in her own clothes, reeking with the odors of the gutter where falsehood was conceived, what intelligent human being will be deceived?

In conclusion it may be stated that in no newspaper in America save the Oakland Enquirer could such an article have appeared in support of a cause advocated and the Enquirer stands alone in the course it has pursued and will continue to stand, for the decent journalism of this nation has by common consent barred such methods.

Mary Garden admits wearing an air of indifference. Well, that's something. An air of indifference and a pair of hose should cover considerable area.

Get Busy on Oakland Amendment.

It is high time that the committees having charge of the campaign for carrying the initiative amendment to the constitution to authorize cities exceeding 50,000 population to consolidate and annex only contiguous territory, known as "The Oakland Amendment," No. 19 on the ballot, began taking some action calculated to let Los Angeles and San Francisco know that this city expects to be on the firing line on election day prepared to work for the success of that amendment.

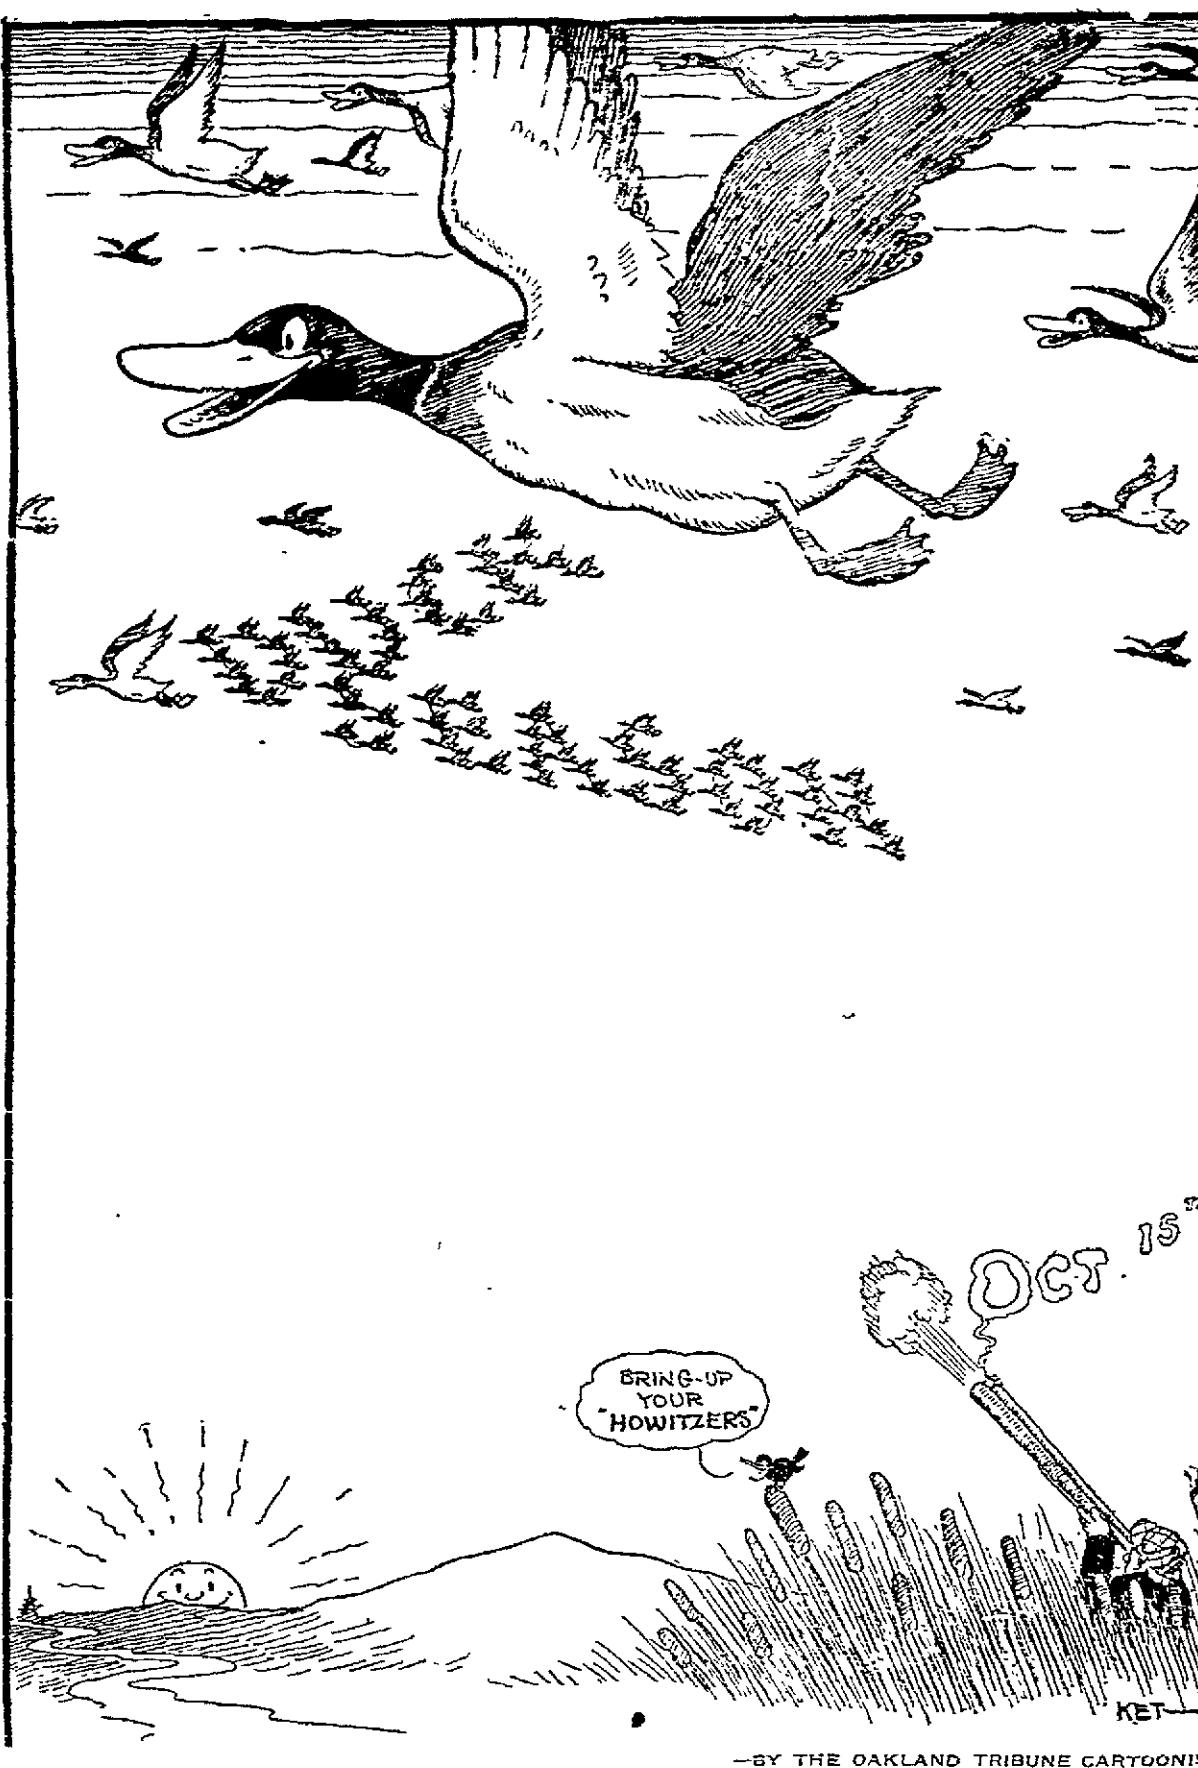

It is high time that some action was taken to convey the information that the City of Oakland has not placed that proposition on the ballot without a purpose in view, but that it was put there in good faith and the people of this city expect to vote for it, to work for it and to carry it.

There has been too much delay, too much dilatoriness in this matter. Election day is November 3 and this is October 13. Time is too valuable to waste. Let there be a concert of action on the part of those who have the matter in hand and some steps be indulged in calculated to show the good faith and earnestness of the community. The citizenship of Oakland and of Alameda county generally, and of other counties in the state favor the passage of this amendment and it is high time that such preference be given the attention and consequent publicity to which it is entitled.

"General" Kelley announces he is going to form another "army of the unemployed." Wait until January 1, and there will be a lot of Hiram Johnson's political machine men available as recruits.

This war appears to be disastrous to the feminine movement. The Germans have bombarded Nancy, fired on Lille and now the little Japanese have captured Caroline Island.

ZEPPELINS

Why Impose Burden on Poor?

The administration proposes to include medicines on the list of articles to be taxed for raising money to make up the deficit caused by a falling off in duties on imports. It is proposed to make the oldtime remedies and proprietary comounds with which we are all familiar carry an added burden and whenever some member of the family wants a bottle of the old standard cures for cold and other smaller ailments to tax the family an added sum for its purchase.

As is well known, these old and tried mixtures are largely used by the poor. Many of them have been in use in this country for a century or more and have been found efficacious. The convenience in purchasing obviates many times the necessity for sending for a high priced physician and paying for medicines compounded by prescription which cost a great deal more than these simple concoctions. To add a stamp tax to the cost means imposing an additional burden on the poorer classes.

Why should this tax not be applied to articles that are in general use by the more prosperous? Why put a penalty on the remedies used by the toilers? Such a course is little more than rank injustice. Apply this stamp tax to articles that are sold to persons able to bear it, and let the poor man's medicines alone.

"The Wild Ass of the Desert" has challenged Hon. Joseph R. Knowland to a public discussion of the issues of the campaign in joint debate. In a few days THE TRIBUNE will print the complete public and private record of "The Wild Ass of the Desert," following which there will be no necessity for him to engage in a public discussion with any one. He will have all he can attend to explaining, or attempting to explain, to the people of this state, Mr. Knowland need not answer this challenge, if challenge it is entitled to be designated.

Mr. Heney's candidacy makes progress among "Progressives" twinkles the Star of Pasadena. Just so, just so!

"Business conditions," jubilantly observes the Watsonville Register, "may not be satisfactory in some parts of the United States, but here in the Pajaro valley more building is going on than ever before. That's a pretty good indication of prosperity." For this relief many thanks. While the rest of the country is depressed we have but to turn our faces toward the apple belt to see Hope's star blazing in all its brilliancy. Watsonville is building more than ever before. Laus Deo, three cheers and other expressions of delight!

In January last Governor Johnson chortled in glee as he related that "forty-eight per cent of the registration in the state was Progressive." The governor added: "I am unable to comprehend why a man who writes Republican after his name can vote for a Democrat or a Progressive if he did not have those principles before he registered." If Hiram could not see why a Republican should vote for a Progressive in January, it is difficult to understand why he is so anxious to get their votes in November. He must have "recalled his own decision."

"Rattlesnake Jim," who is walking around the world barefooted, and Hiram Johnson both struck Watsonville the same day and at last reports the gentle apple pickers were fleeing in the direction of the headwaters of the Soquel, where the tall timber is thickest.

Following closely on a day of prayer for peace the United States let contracts for three dreadnaughts.

Contra Costa's tax collector has asked the attorney-general if paper money is good for taxes in view of the fact that the state law provides for their payment in gold. The money issuing function is inherent in the national government. Paper money carries this language authorized by Congress: "This note is legal tender for all debts, public and private, except duties on imports and interest on the public debt." That ought to settle it.

FAME'S PATHWAY

After 32 years of continuous service as a trustee of Columbia University Seton Low has resigned. For ten years of this period from 1897 to 1907, Mr. Low was president of the University, and Alonzo George Goethals will preside over the Columbia International Engineering Congress. As a natural born Montanan, he said to himself, "I will go to the Hague." He is the latest late holder of the Columbia chair of engineering, which the exposition is to occupy. It has an elevation of 100 feet, surrounded by towering trees. The Columbia International Engineering Congress will be held in New York September 10-15, 1915.

LEGISLATIVE AID FOR COTTON MEN

Amendment to Relieve Threatening Conditions Before Senate.

WASHINGTON, Oct. 13.—When consideration of the war revenue bill was continued in the Senate today Southern Democratic senators were ready to submit an amendment to the measure designed to relieve the threatening conditions confronting cotton growers of the South as a result of the European war. The outline of the amendment agreed upon at a conference of Southern Senators last night at which a number of proposals looking to legislative aid for the cotton situation were discussed. The meeting was held following the action of the Southern Democrats in refusing to allow the Senate to agree to a vote on the war tax measure. Thursday, the conference having been adjourned, that Congress must come to the relief of the cotton growers.

The amendment as outlined at the conference would provide for an issue of three year four per cent bonds by the Government to create a loan fund for cotton growers. Cotton taken as security would be held until 1916. A tax of one cent a pound would be levied on the 1916 crop, the proceeds of the tax to be used in retiring bonds then outstanding.

Efforts of Southern members of Congress to force the adoption of the proposed amendment may delay adjournment of Congress. Southern senators do not intend to filibuster on the war tax bill, but it was thought that they would be satisfied with a vote on the proposal.

GROCERY ROBBED BY ARMED BANDIT

First Store Holdup Is Frustrated by Daring Proprietor.

Holdup men entered two groceries, one in Oakland and the other in Piedmont, last night, and in the Piedmont store obtained \$300. The police of the two cities co-operated in searching for the bandits, but were unable to find any trace of the men. It is not known whether the two holdups were attempted by accomplices, or whether they were done by men who were not associated in any way.

In the Piedmont holdup it is apparent that the man who entered the place had no accomplices, as he entered for a lookout. He walked into the store and ordered some groceries, offering \$10 in gold in payment.

J. A. Eustice, proprietor of the grocery, which is on Grand Avenue and Linda Street in Piedmont, attended to the cash register, taking approximately \$10. Then he backed out of the place and joined his accomplice.

The two robbers ran down Linda street toward Bonita Avenue. They passed Tom's Market, Bonita, the night before, thinking that they were within striking distance of a street car, and made no attempt to capture them. The man who entered Eustice's store is described as about 30 years of age, stockily built, with dark hair, a mustache and of dark complexion. He wore dark clothes and a black fedora hat.

The other holdup last night occurred at the grocery of Kingsbury Bros., 2433 Grove street. The man was obviously a novice. He entered the store and walked up to the cash register. One of the proprietors, Eustice, told him to hold up his hands, at the same time not poking a revolver in his face.

Kingsbury leaped at the man, grasped the revolver and twisted it from his hand. The bandit, fearing that his escape before Kingsbury could use the weapon.

PLANS "INDUSTRIAL MANAGER."

WASHINGTON, Oct. 13.—Secretary Daniels began yesterday an experiment in navy yard work by designating Captain George E. Burd as "industrial manager" of the New York Navy Yard. Secretary Daniels will remain commandant of the yard, with supreme authority, but will be relieved of the harassing details of the management of the 5,000 workmen. He will devote himself to purely naval questions.

LADIES! DARKEN YOUR GRAY HAIR

Look years younger! Use Grandmother's recipe of Sage Tea and Sulphur and nobody will know.

The use of Sage and Sulphur for restoring faded, gray hair to its natural color dates back to grandmother's time. She used it to keep her hair beautifully dark, glossy and abundant. Whenever her hair fell out or took on that dull, faded and spreading appearance, this simple mixture was applied with wonderful effect.

But brewing at home is messy and out-of-date. Nowadays, by asking at any drug store for a 50-cent bottle of "Wright's Sage and Sulphur Compound," you will get this famous old recipe which can be depended upon to restore natural color and beauty to the hair and is splendid for dandruff, dry, feverish, itchy scalp and falling hair.

A well-known downtown druggist says it darkens the hair so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through your hair, taking one strand at a time. By morning the gray hair disappears and after another application or two it becomes beautifully dark, glossy and abundant.

Yuba City, Oct. 13.—In attempting to avoid crashing head on into a buggy driven by Guy Walton, a well known fruit grower, Charles Best turned his machine abruptly about on a narrow road near here, tipping it over on the side of a steep incline, hurling his wife, who was riding in the tonneau, out on the rough rocks at one side. On being picked up she was found to be suffering from numerous cuts and bruises and possible internal injury. Best escaped unhurt, but the machine was nearly wrecked, the shaft on the buggy tipping the top off, while two wheels were crushed in when it went off the road.

British Cable Wrecked by Germans

WIRELESS ON
PACIFIC IS
RUINED

SAN FRANCISCO, Oct. 13.—News of the destruction of the British cable station on Fanning Island, which connects Canada with Australia, by the German cruiser Nurnberg on September 7th, was brought here today in a relaxed account from Honolulu by the Matson liner *Wihulihina*.

On the same ship came the first account, too, of the destruction of the German wireless station at Maura, in the Marshall group, by the British-Australian battle fleet, on or about September 25th.

Because of the isolated position of Fanning Island, the cause of the sudden silence of that cable on September 7th could not be discovered until September 25th, when the British steamer Kestrel, Captain E. L. Tindall, under orders of the British government, reached Fanning island with a cargo of supplies.

Captain Tindall, returning to Honolulu, October 3d, brought the account of the British cable employees, whom the Germans did not molest other than to treat them with an ironical brusqueness.

Fanning Island is inhabited by fifty white men, four women and 200 natives.

After the destruction of the cable station, the Nurnberg, accompanied by a cruiser, steamed toward the southwest and toward Marshall Islands, as the British cable employees believed.

According to the account of Captain H. T. Seaborn, of the Norwegian tramp steamer *Fronto*, it was a case of fit for fit between the British and the German cruisers in the Pacific, for, while the Germans destroyed the Fanning cable, the British, some time shortly before September 25th, destroyed the German wireless station at Maura on the Marshall group. This was short time before the Marshall group was seized by the Japanese squadron.

IMPLEMENT PLANT BURNS.

KLAMATH FALLS, Ore., Oct. 13.—The entire plant and stock of implements of the Farmers' Implement and Supply Company, in this city, were wiped out by fire. Seven streams of water were played upon the fire for several hours. The heroic work of the fire department kept the fire in the one building. The loss is estimated at about \$60,000. There was about \$10,000 insurance. Six men were hurt, one received a broken leg while jumping to the pavement from the roof as it caved in.

KEY ROUTE TEARS UP TRACK PAVING

Large Force at Work on Grove
Street, But Intention Is a
Mystery

BERKELEY, Oct. 13.—The Key Route company put a large force of men to work this morning tearing up the paving about its tracks on Grove street, but the intention behind the operation is still a mystery to the city commissioners. The company has not volunteered any information to the commissioners or council. It was stated at the city hall this morning that if the company followed the paving of its tracks by the laying of any sort of pavement other than that required in the paving ordinance adopted for Grove street, it will be immediately enjoined. The ordinance for Grove street paving provided for a minimum of 100 feet of paving. One of the company's offers made by the company to the city was for an oil and screening pavement of its right of way. Mayor Heywood declared this morning that under no circumstances would the city accept the offer of paving down on Grove street. No further conferences have been held between the company and the city administration since that of Thursday night, when the company offered a paving proposition entailing an expense of \$1,000, but this was not accepted by the council.

Commissioners Hoff and Turner are out of the city for the week and it is not expected that further action will be taken by the commissioners until their return. Meanwhile City Attorney Frank V. Curnish and George Clark, special counsel are proceeding with the preparation of the city's case against the temporary injunction secured by the traction company. Hearings will be heard in the Federal court by Judge Maurice Dooling on October 20.

"The first outcome of this war will be the emergence of submerged nationalities, up through the map of Europe. Then will follow a period of changes in language.

"We in America do not think that language would cause international difficulties, but in Europe, language takes a most important part in politics. The murder of Archduke Francis Ferdinand, however, has increased in terms of language. Austria herself is in a per-

verse state of affairs.

"Two classes of people, Slav and Teuton, are herded under a state of mutual protection until they do not speak the same language.

Slav countries a slight majority of the population of Austria-Hungary. There is where the greater perversity.

"This war had its origin in the young movement in Austria in 1908, Russia resented Austria's action in annexing Bosnia, but Russia was prevented from striking Austria at that time. Archduke Ferdinand and Emperor William entered into an agreement showing that Germany was to seek for a peace in the southeast part of Europe but Russia expected to take care of the Slav States of the Balkans.

"Things came to a crisis when Vivian, former French Socialist, but now a propagator for a world empire, and President Poincaré visited the Russian Czar.

"No man knows how it came about but the ships were carried over the great Niagara, one after another until they were all cast into the seething whirlpool of war.

"Let the nations turn and overturn their feet, eat no more until the world's feet are cast into the sea, will reign and continue to rule over nations as now rules over saints."

At the third lecture to be given by the City club next Friday, Professor Cross will speak on "War and the Working Class."

SITUATION UNCHANGED.

WASHINGTON, Oct. 13.—Colonel Hatfield, commanding the American troops on the Arizona border, reported to the War Department early today that the situation at the besieged Mexican town of Naco was unchanged.

"Desultory firing continued through the night," the dispatch says. "It is impossible to prevent bullets from falling on the American side as long as firing is continued. A sharpshooter yesterday passed through the rear of an occupied house near the border. It was an accident and the bullet was checked immediately and deflected. In addition to the bullet wounded some time ago, a corporal has been shot in the thumb."

Rear-Admiral Howard notified the Navy Department that conditions at Acapulco were improving and all ports on the west coast of Mexico were quiet.

TOWN AGAIN ATTACKED.

DOUGLAS, Ariz., Oct. 13.—A second attack on Agua Prieta, Sonora, and its Carranza garrison was made last night by Yaqui Indians, who were repulsed the night before, and two columns of Madero's forces from Naco. The entrenched garrison successfully resisted the early night assaults.

Preparing for the siege, the garrison was increased from 100 to 350 men Saturday night. Further reinforcements arrived today. More are expected.

The Nacozingo has been cut by the defenders to prevent the rapid collection of scattered scouting parties of the "Tin" forces.

Government-Maysteyra's object in besieging Agua Prieta, requiring him to weaken his Naco attacking force to do so, is said to be his necessity for a base of supplies nearer Naco than is Nogales, his present source.

Every available firearm here is being bought by Carranza agents to equip the garrison forces, some of the reinforcements arriving without arms.

During the attack last night bullets from both sides fell here and the inhabitants fled to the center of the town for safety.

ZAPATISTAS ACTIVE

MEXICO CITY, Oct. 13.—An attack made on the night of October 10 on San Angel, Xochimilco and other suburbs of Mexico City by adherents of Emiliano Zapata, caused a reign of terror in the capital. The suspense was relieved when it was officially announced that Zapata's followers had agreed to cease fighting until the termination of the peace conference between the northern and southern constitutions, as agreed at Aguascalientes. The troubles in the suburbs were satisfactorily adjusted.

WHEELER BACK; TALKED ON WAR

"Perverse and Wrong-Minded." His Comment on Struggle.

UNIVERSITY OF CALIFORNIA, Oct. 13.—President Benjamin Ide Wheeler is home from Los Angeles where he has been to the West Coast to continue the status of the Pacific War. "Perverse and wrong-minded war," he told a capacity audience during a lecture under the auspices of the City club of Los Angeles.

"We realize that the nations have been dragged into the war by 'agents of darkness,'" said President Wheeler. "We should be thankful to our first President for teaching us to beware of these 'agents of darkness' in our country—Russia. France is going to war because Russia is an ally of hers and because she is under obligation to Russia. She is also seeking to keep the German army from the side of the Allies in the war.

"The German army has been invading Russia, Germany is invading France, and Russia is invading Germany. The war is going to be fought in the neutral countries.

"The first outcome of this war will be the emergence of submerged nationalities, up through the map of Europe. Then will follow a period of changes in language.

OAKLAND-BERKELEY TIE WILL HAVE TO BE PLAYED OFF

Winner Will Probably Be the Team Which Will Make Southern Trip.

The game between Oakland and Berkeley High Schools, which unfortunately ended in a tie, will certainly be played off, as the winner of this game will more than probably be the team that is to go south and play for the championship of the state. Teams like Oakland or Berkeley are set especially among prep schools, and these two schools, which represent the cream of the state, will certainly be factors in the championship running.

The tie of Fremont eliminating Berkeley from the championship by Fremont's victory over Berkeley resulted in the discovery and proof that this game, in which Berkeley was defeated by a 15 to 13 score, was an awful prelude to the tie, which followed Fremont by a 14 to 6 score just a week before the former game was played. In fact, Berkeley's defeat was due to the non-appearance and poor condition several of their stars, it is certainly not fair to judge the Berkeley team on their showing in this game.

This afternoon at 4 o'clock the Alameda and Oakland teams will face the kick-off. This is Alameda's first league game and a definite standing could be made on this showing against "Poly."

"Poly" has a much improved team, their back field is as yet untried, but the hard, contentious and fighting players and the little rugby knowledge which has been taught by the careful tutelage of Frank Book will certainly be used to advantage. Poly has already been defeated from the ranks, though, and defeats to Oakland and Berkeley high schools.

The playing of Clarence "the" Krone for Oakland at wing-three quarters in last night's game was particularly skillful, as far as the wing position. With "Poly" a fixture, Coach Von has Jolly, Shindler and Charlton to back upon for the remaining positions. Von's team for the rest of the year will lie in the following: Krone, H. H. Howell, Miller, Black, Atwater, Watt, Murray, Crawford, Weislander, Hall, Gimbal, five, Fowler, Heynes; three-quarters, Stanet, Krone and Jolly. Substitutes: Banks, Shindler, Chew, McHenry, Charlton, forwards, Anderson, McNeil.

"Swede" Wibæk, former "Poly" track athlete, has been a conspicuous figure at the recent "Poly" games. "Swede" was one of the most promising 100-pound runners that Coach Christie had to set up. A serious accident killed his ambitions chances.

"Von" Kahler, Oakland High school star, is now a Barnes Oldfield the Second. Gasoline and athletics don't go together very well so Von decided that an auto man is his style, and so the racer.

Jack Learner, Oakland High alumni, is one of the most promising 100-pound runners that Coach Christie has to set up. His eyes upon. Jack broke many prep records for Oakland High.

The playing of Roy Fowler on last Friday was certainly the feature of the day. According to the Berkeley players, Roy was as squirm as a worm and his playing bothered Berkeley not a little.

Phil Dalton has been shifted by Coach Boek into a five-eighth position. Read at half: Scott, Gracida, Lorimer, Bush and Paden will complete the back field.

Next Saturday Oakland will meet the Alameda High school team in a game that promises to be hard fought and exciting through as Coach Otto Ritter has worked like a team with the Encinal lads and the success of the Alamedans.

The final practice game for the U. C. Babs will be played tomorrow afternoon at 5 o'clock at the San Jose High school, whom the Stanford Freshmen defeated by a 30-6 score.

This will be the only mid-week game for either the Freshmen or Varsity.

After the Freshmen game of the year will be on Saturday, when the team will meet the University of Nevada. After this game the Varsity and Barbarians will hook up. Palmer Fuller will referee.

Stanford Varsity men are living at the "Big" House, the residence of Captain Gard. The fellows are highly elated over this place and Coach Brown, together with Trainer Maloney, is satisfied with the place.

Coch Brown is certainly shifting the Varsity men around. On Saturday, after the game was on ice, Gard went to see the Varsity team and five to first five. Lieutenant Frank Martin, and Ogden at breakaway for Captain Gard, while Temperton went in at full. These moves have been made so as to perfect more substitutes for the different back field positions.

R. E. Please, veteran look, is suffering from a dislocated shoulder. It is not known exactly what it is, but it will keep him for a while on the sick list, at least.

UMPS OF TODAY TREATED LOYALLY COMPARED WITH OTHER DAYS

Indicator Men Assessed Useless Penalties Before Days of Commission.

Employers live in the golden age today, their existence is passed in a garden spot. So says E. H. Wood, one of the old time umpires in the Western League and later substitute umpire in the National League in his time, according to Wood, a leader in the indicator men summed up all of his life as an outcast, a man without a country.

"Umpires had to have nerve, and bunches of it, when they was in the woods," says Wood.

"Those were the times when we had to fight it out with the players on the ball field, and we didn't have a Ban Johnson or John Tener to back us up. We couldn't afford to have an umpire to offend a player, but we couldn't hit him out of the game or even bench him. So you can see where we got off."

"I remember once when I was an umpire in the Western League, I had to sign when I called 'em out. Every decision was trouble for me."

"This was Bob Plimmons, for instance. Bob had the skinniest legs in captivity, but in one exception, Jim Corlett's were thicker, although Corlett's were thinner. I had to sign when I called 'em out, and I had to sign when I called 'em up, because I had to sign when I called 'em out. Every decision was trouble for me."

Besides the legs, Bob had another distinguishing trait—one by which you could have detected his presence in the dark. "Bob was pleased to describe it as his 'tenor voice.'

"Thousands of men would have given half their lives to possess a quarter of his ability and his fame. But Bob didn't care much about fighting as he name gets above him. He was a tenor, a very beautiful tenor, Mr. Plimmons."

"Bob's one other ambition was to have nice trick legs. He used to look critically at Jeffry underpinning and ankles, and when he got to the top, he'd say, 'Bob, you have nice trick legs.'

"Perhaps the worst experience I ever went through was in the Western League the first day I officiated at Wichita. Baseball was in its infancy out west then. The umpires were the goat for skinned-out players and every game was a nightmare."

"This was a battle I'll never forget, and you never will know how exciting a safe hit was until I tell you this. The safe hit was 17 runs, and I had to go to Wichita and help them when they was playing.

"The stands over near third base didn't have a fence, and it seemed as if every decision was made either at third or at the plate."

"Finally—it was in the 15th—Tom Mansel came to bat. He was famous before he hit the Western League as a bat-stealer, and he was a good one. The centerfielder took out his bat as it sailed over his head and then started in.

The game was won right then and there. I don't believe they ever found the ball. I was quite some distance to the left of the centerfielder, and managed to get around the field. By the twelfth inning the players and we were almost surrounded by the crowd, and when I got to the plate, I had to sign when I called 'em out. When I got to the plate, I had to sign when I called 'em up, because I had to sign when I called 'em out. Every decision was trouble for me."

"John Coulon, who recently lost the bantamweight title to Kid Williams, would like a chance to fight again, and when he gets it, he'll be a weakling again. He's a weakling again, a six man inter-club sprint race for the beautiful Claremont trophy and the big miles and out race. In the team race the Acme New Centurys, Garden Cities and Sacramento clubs will enter teams, the usual large entry in the open miles and out race."

The annual John club run of the California Associated Cycling clubs was decided to postpone the final bicycle race meet until after the stadium on October 25 for the benefit of several of the riders who were bruised in a spill at the championship meet which kept them from training.

SAN FRANCISCO STORE, 974 MARKET STREET.ELKS PERFECTING ROLES
FOR COMING PRODUCTION

Elkdom in Oakland, Berkeley and Alameda is looking forward with great interest to the production next Friday and Saturday evening at the Macdonough Theater of "The Elk's Tooth," which will be given under the auspices of Oakland Lodge of Elks. The more than dozen

young women are being perfected in their roles and from all indications the play will be the most elaborate and successful ever given by a fraternal order in Oakland.

The lodgemens are working hard for the success of the big show. A special boosters committee has been appointed by Fred A. Hooper, exalted ruler of Oakland Lodge, and many prominent

women will act as patronesses.

**5 Women
Avoid
Operations**

For years we have been stating in the newspapers of the country that a great many women have escaped serious operations by taking Lydia E. Pinkham's Vegetable Compound, and it is true.

We are permitted to publish in this announcement extracts from the letters of five women. All have been recently received unsolicited. Could any evidence be more convincing?

1. HODGSON, ME.—"I had pains in both sides and such a soreness I could scarcely straighten up at times. My back ached and I was so nervous I could not sleep, and I thought I never would be better until I submitted to an operation, but I commenced taking Lydia E. Pinkham's Vegetable Compound and soon felt like a new woman"—MRS. HAYWARD SOWERS, Hodgdon, Me.

2. CHARLOTTE, N. C.—"I was in bad health for two years, with pains in both sides and was very nervous. I had a growth which the doctor said was a tumor, and I never would get well unless I had an operation. A friend advised me to take Lydia E. Pinkham's Vegetable Compound, and I gladly say that I am now enjoying fine health"—MRS. ROSA SIMS, 16 Winona St., Charlotte, N. C.

3. HANOVER, PA.—"The doctor advised a severe operation, but my husband got me Lydia E. Pinkham's Vegetable Compound and I experienced great relief in a short time. Now I feel like a new woman and can do a hard day's work and not mind it"—MRS. ADA WILT, 196 Stock St., Hanover, Pa.

4. DECATUR, ILL.—"I was sick in bed and three of the best physicians said I would have to be taken to the hospital for an operation as I had something growing in my left side. I refused to submit to the operation and took Lydia E. Pinkham's Vegetable Compound—and it worked a miracle in my case, and I tell other women what it has done for me"—MRS. LUCILLE A. GEISWOLD, 2300 Blk. East William Street, Decatur, Ill.

5. CLEVELAND, OHIO.—"I was very irregular and for several years my side pained me so that I expected to have to undergo an operation. Doctors said they knew of nothing that would help me. I took Lydia E. Pinkham's Vegetable Compound and I became regular and free from pain. I am thankful for such a good medicine and will always give it the highest praise"—MRS. C. H. GRIFFITH, 705 Madison Av., Cleveland, O.

(WRITE TO LYDIA E. PINKHAM MEDICINE CO. (CONFIDENTIAL) LYNN, MASS. FOR ADVICE. Your letter will be opened, read and answered by a woman and held in strict confidence.

**WEALTHY WOMAN
CALLED BY DEATH**Many Charities Endear Mem-
ory of Mrs. Flora Main
MacDermot.

Mrs. Flora Main MacDermot, widow of the late Charles F. MacDermot, one of the wealthiest men of Alameda county, died yesterday morning at the family residence, 1401 Eighth street. Mrs. MacDermot had been ill for a long period. At the time of her death she was surrounded by her children, who were in constant attendance. The Mayor and Mrs. Ralph were not seriously hurt, but it was announced this morning that both were suffering considerably and that the doctor had ordered rest and quiet. The accident occurred near Byron Springs, where Mrs. Ralph and her son, James, were driving. They were driving in a automobile when a chauffeur came to a sharp turn and the machine skidded into a rut. Mrs. Ralph was thrown forward on her head, plunging out of the car. Her son, James, was thrown forward, the front of the Little League was unbent. The chauffeur also escaped. The Mayor suffered a broken rib and several bruises and Mrs. Ralph received a crushed foot.

During her life Mrs. MacDermot made many large bequests to charity, but her kindly deeds were never revealed outside of the general list of her kind of acts.

She was a member of the Society of Colonial Dames and also of the Daughters of the American Revolution.

Mrs. MacDermot was born in New Hampshire, 65 years ago, but she passed the greater part of her life in California.

She traveled abroad extensively with her husband, who was one of the pioneers of this city.

Four children survive the couple. They are Mrs. Frank H. Proctor of this city; Mrs. J. MacDermot, Mrs. C. A. Crawford of England, and L. M. MacDermot of San Francisco.

The funeral will be held tomorrow afternoon from the home on Eighth street Rev. Alexander St. Paul, rector of St. Paul's church in this city, will read the service.

**Auto Strikes Sheep
Band; Woman Killed**

CORNING, Tehama county, Oct. 10.—While racing to catch a northbound train at Tehama, Mrs. Irma Taylor was instantaneously killed when her automobile struck a sheep and a mare running loose. Her husband, Fred L. Taylor, who was driving the car, was pinned under the car, but escaped with minor bruises.

The accident occurred two miles north of here just before daybreak. The car was traveling at a high rate of speed, evidently going at a high rate of speed. The sheep, belonging to Supervisor W. H. Samson, were being brought here for shipment.

Drivers heard the crash and rushed to the overturned machine. Mrs. Taylor was lying clear of the auto. Her husband was pinned beneath it. The woman had been struck in the back of the head as the car first turned turtle.

They will visit all state capitals, including Washington, D. C., to the approximate number of two hundred, including the great university centers and other large cities. They stand for the abolition of the liquor traffic and work for harmony with every other organization. Their object is to be without prejudice to, or interference with, the fundamental principles or policies of any organization now in the field. They represent no political party, party of opinion, group of workers, but are determined to crystallize into concrete action, the ever increasing sentiment of all who are opposed to this great enemy of mankind. Admission to the meetings will be free to the fees of music, oratory and song, and the opportunity of hearing these great men and women from the same platform may never come this way again.

**DAMAGE TO FREIGHT IS
CUT BY SAFETY FIRST**

That the safety first activities of the Southern Pacific Company are not confined to passenger traffic alone is shown, in the fact that the company has established a record among railroads for the prevention of loss and damage to freight—and this in spite of the fact that approximately thirty percent of its freight traffic is perishable, and thirty-four percent merchandise and products of manufacture.

The above is brought out in comparative figures showing the ratio of loss and damage claims to freight revenue for the important truck lines of the country. These figures show that there is but one road with a lower percentage than the Southern Pacific, and that is an Eastern road whose principal freight traffic is coal.

The Southern Pacific's low percentage is 39.100 of one percent. That it has maintained for two years.

SAILORS NEARLY STARVE.
NEW YORK, Oct. 13.—Thirty hungry sailors, who experienced a close call to starvation on the sea, reached New York yesterday aboard the schooner Alice Lord, long overdue from St. Martens, in the Danish West Indies. The little vessel had been driven by a hurricane nearly 1000 miles from her course. For five days the only daily rations her sailors had were a plate of bean soup and two or three pancakes apiece.**MAYOR AND WIFE
